Response to Amendment

1. Applicant's amendment was received on 8/25/05, and has been entered and made of record. Currently, **claims 1, 3, 4, 6, 9, 10 and 11** are pending.

Allowable Subject Matter

2. **Claims 1, 3, 4, 6, 9, 10 and 11** are allowed. These claims will be renumbered as 1-7.

3. The following is an examiner's statement of reasons for allowance:

The independent claims 1 and 3 distinguish over the prior art in that the control means automatically dials to the recipient when the first page of the plurality of pages of the image has been obtained from the document input means wherein the control means indicates an incompletely stored page number to a user and appends a message to a document page transmitted last to inform the recipient that there are still additional pages remaining to be received when an amount of space available in the image storage means falls below a predetermined value or the image storage means becomes full.

As previously cited in the office action dated 7/21/05, the combination of Okada, Satio and Maniwa discloses the control means for appending a message. However, the combination does not teach the applicant's claimed combination of the control means for indicating an incompletely stored page number to a user.

Art Unit: 2622

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
